

FASTLANE POOL ELITE STROKE TRAINING SYSTEM

Elite One-on-One Coaching

Introducing the Fastlane Pool Elite, a counter-current swimming machine that will revolutionise swim instruction. The Elite offers coaches a unique and unprecedented opportunity to analyse every element of their swimmers' stroke, while providing both coach and athlete

instantaneous, real-time feedback via adjustable cameras and mirrors. Most importantly, the Elite is fast, strong and smooth — faster by far than any swimming machine on the market today. And with units as small as 2.44m x 4.27m, it fits on any deck... and in any program.

Fastlane Pools is the world leader in counter-current swimming machines, selling over 18,000 units to homeowners, physical therapists and masters swimmers for swimming, water exercise and recovery. Our new 7.5 HP Elite pool is designed specifically for top swimmers: with a 55 second—100 metre pace, it even challenges sprinters. With the Elite, a coach can increase the current speed to a swimmer's race pace — see precisely when and how their stroke breaks down — and fix it. Immediately. You can't do that yelling across three lanes of a 50-meter pool.

The Elite is also ideal for teaching all levels of swimming, from young beginners to Masters — generating welcome income for your program. There is no better one-on-one teaching environment.

Fastlane Pool Elite Specifications and Options

- 2.44m x 4.27m swimming area (2.95m x 5.18m footprint)
- 1.12m or 1.27m water depth
- modular steel construction
- 7.5 HP, two propeller, swim current generator
- reinforced acrylic water flow and conditioning system
- three 1.5m x .46m stainless steel VGB compliant suction grills
- perimeter, 24.75cm wide, synthetic coping
- commercial grade water quality system
- automatic chemistry controller (ORP, pH)
- lockable retractable security cover

Dartmouth College

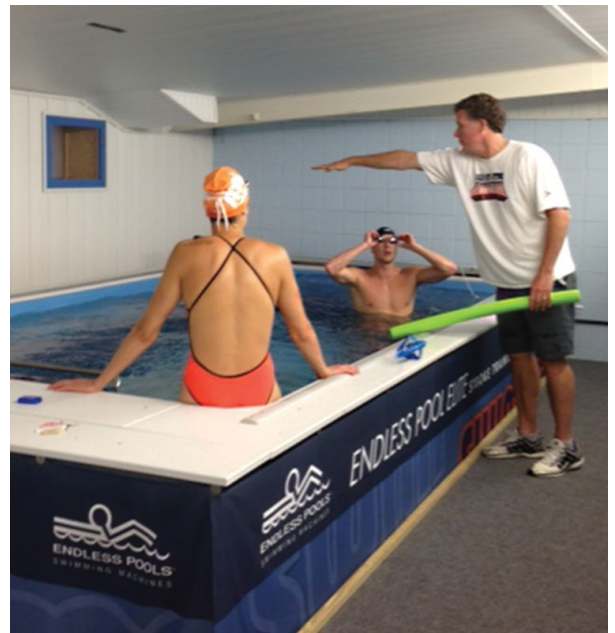

0:55—hundred metre pace

University of Kentucky

“For years at Auburn I trained my athletes in an Fastlane Pool — but the Elite we put in at SwimMAC takes it to another level. It expands my ability to provide the best technical advice possible.”

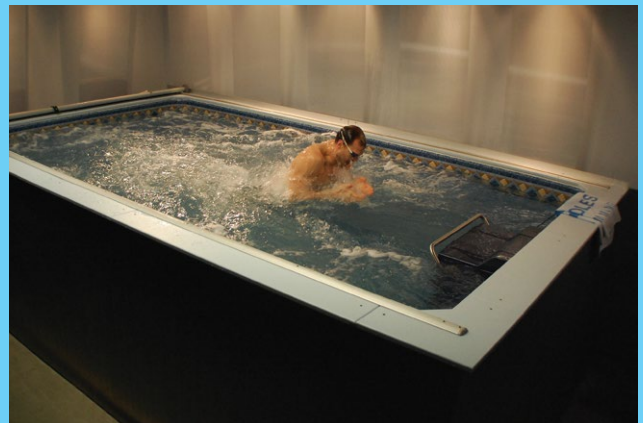

— **David Marsh**
CEO & Director of Coaching for SwimMAC

Coach Marsh, SwimMac Carolina

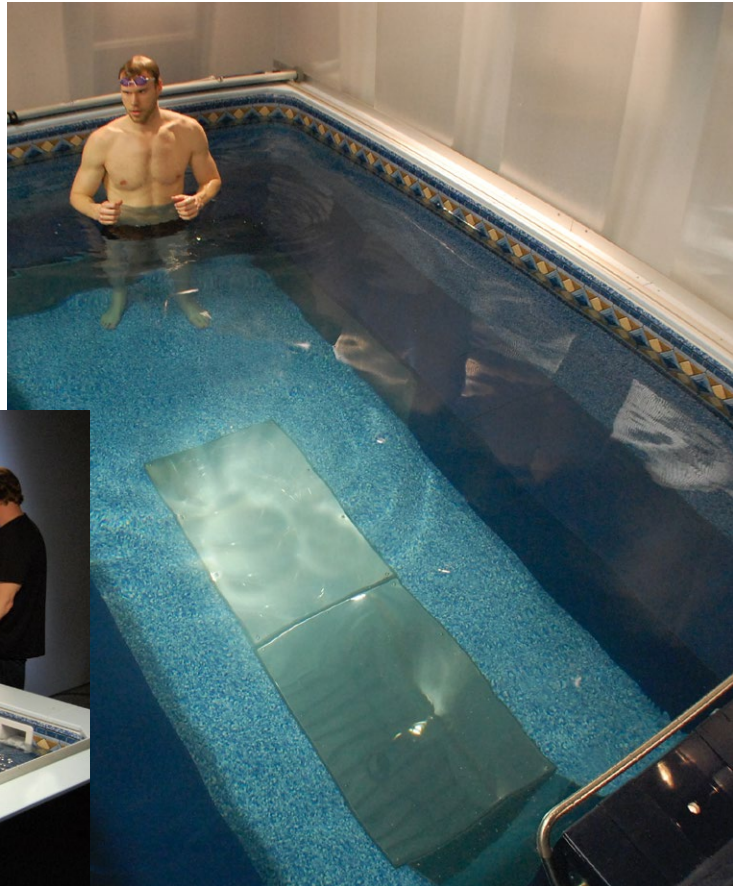

2.44 metre width to accommodate even the tallest swimmers.

Smooth, broad swim current, sub :55—hundred metre pace.

“There’s never been a better method to evaluate, teach and test top level swimmers on a daily basis than the Elite Fastlane Pool®”

- Glenn Mills, goswim.tv
